### IV. Standards:

Grades will be assigned in accordance with University standards. Final grades will be based on quizzes, examinations, and established performance criteria for each instrument.

### V. Rationale and Impact:

- A. This is a new course and will be required of all music education majors.
- B. The course will provide students with the necessary training in order that they might be better prepared for a career as a music educator in the public schools.
- C. There will not be an impact on other existing departments or programs.

**VI. Cost and Staff Analysis:**

- A. The university can anticipate normal operating costs associated with the implementation of the new curriculum; however, the cost is minimal since instruments will be provided by a local merchandiser for a small maintenance fee. The course will be taught by current faculty members.
- B. The course will be offered each semester.
