

# Campus Beautification Project Recommendation

Name: Denise Shoemaker

Date: October 23, 2007

Recommended work: (please include location and detailed scope of work)  
Sullivan Hall – the outside of Sullivan Hall

Please provide information on how your recommendation meet each of the the following criteria:

Aesthetics-20 pts. The surroundings of Sullivan Hall are very grim. For the building being main administration, it is the most aesthetically displeasing building on campus. The plants and mulch under the oak tree helped but closer to the building is nothing but mud. The sidewalk around the “ugly” sculpture could be wider for wheelchair access, you could at least put stones around the air conditioner (or whatever that huge machine is) like you did at Ulmer, get rid of the bush that was half torn apart and put something that would look nice and grow in the shade. The back side of Sullivan could have a nice “bus stop” rain shelter with a bench for students when waiting for the shuttle. Get rid of all the “do not cross” yellow tape. .

Educational Value-10 pts. \_\_\_\_\_

Frugality (one time and ongoing costs)-20 pts. All these things could be done with minimal expense making the administration building look like we actually care about our campus. More extensive changes could be made dependant upon budget

\_\_\_\_\_

Range of Impact-10 pts. Hugh impact on campus appearance especially for visitors

\_\_\_\_\_

Legality (Compliance with law, policy, contract or code)-15 pts. \_\_\_\_\_

Public Safety-15 pts. People would not be tramping in mud and slipping.
