Hi Dave,

I have one suggestion that would be very low cost. Couldn't we have faculty/students/staff "adopt" recycling centers? When I played golf at a club, we were encouraged to adopt a green and be responsible for repairing pitch marks, even if they weren't our own. Perhaps faculty in the key buildings could similarly adopt a recycling bin, making sure that it's properly labeled, that the right stuff ends up in the right bin, and even taking trash from regular cans to the appropriate bin. This is essentially what I've been doing on 3rd-floor Raub and result has been very positive. The goal would be to have several people adopt the same bin so that one person wouldn't end up doing all the work.

Thanks for soliciting input on these issues.

Bob

Good morning.

The Campus Beautification Committee is soliciting suggestions from the LHU community on campus appearance. We want to hear what you feel would make a difference!

To submit your ideas, please fill out the attached form as completely as possible. If you are unsure of what information to include, please feel free to call me at 484-2018 and I will be glad to discuss your ideas and make suggestions on the information needed. The forms can be sent to my office at the East Campus, or submitted electronically as a word document or PDF. Electronic submissions should be sent to [dproctor@LHUP.edu](mailto:dproctor@LHUP.edu).

As I receive the submissions, I will develop an order of magnitude cost estimate and take them to the next committee meeting in November. At that time, the committee will prioritize the work based on the point score totals for the seven criteria shown on the form. I will place the results of the committees prioritization on the Facilities web site.

PLEASE SUBMIT YOUR IDEAS...WE WANT TO HEAR FROM YOU.

Dave Proctor  
Facilities Director
