

Campus Beautification Project Recommendation

Name: Denise Shoemaker

Date: October 23, 2007

Recommended work: (please include location and detailed scope of work)

Brick and level out the walkway up to parking area behind Price and Glennon and plant ivy on hillside. This view is very aesthetically unpleasing and you never know what is in the weeds. Staff would not have to go up there once a year and clear the brush.

Please provide information on how your recommendation meet each of the the following criteria:

Aesthetics-20 pts. Huge impact on appearance.

Educational Value-10 pts. _____

Frugality (one time and ongoing costs)-20 pts. Very inexpensive one-time effort.

Range of Impact-10 pts. Students and faculty/staff would have a much better walkway and view.

Legality (Compliance with law, policy, contract or code)-15 pts. ADA specs.

Public Safety-15 pts. I've fallen twice coming into work on snowy days. I think the brick walkway would be easier to walk on and would at least get shoveled or salted. This is a huge impact on safety since the parking on Glenn Road has been taken away and people are expected to come to work no matter what, the walkway could be made even with a gradual upgrade instead of having bumps and dips. I also feel that it would be taken better care of if it were made to look like it is actually part of campus.

Stakeholder Ownership-10 pts. I don't park up there anymore because of the walkway. I have also been told by someone in Ulmer (where I park now) that I should park in my own parking area!

Please use the back of this form if more space is needed.

Each suggestion will be assigned a score by the committee and supported by a cost estimate from the Facilities Department. Based on the scores assigned, a priority list will be developed using the score for each suggestion.

DO NOT WRITE BELOW THIS LINE

Total Score Assigned: _____

One time cost for purchase and installation: _____

On going support costs: (per year) _____
