Comments:

These figures are associate degree-specific. Students who originally entered as associate degree-seeking and subsequently switched to baccalaureate degree-seeking or became non-degree seeking undergraduates prior to earning the associate degree are not counted as retained when the transition occurred.

As is the convention with IPEDS, data used for these calculations may be adjusted for students who departed for the following reasons: deceased, permanently disabled, or joined the armed forces (including those called to active duty from the Reserves or National Guard) or foreign aid service of the federal government or official church missions. These are exclusions, and may be subtracted from the cohort prior to calculating the retention and graduate rate. In cohort years 1999, 2000, 2001 and 2002, four students (one each year) met the criteria for exclusion and were removed.
