

Informal Lab Write-Up Format

Cover Sheet

Include a cover sheet that has the following information:

- a. Your Name
- b. Course and Section
- c. Date
- d. Title of Lab
- e. Lab Partners

Theory

A discussion of the background with any relevant equations. A discussion of how the ideas are being tested in the lab. Predictions. Applications of the theory.

Measurement Uncertainty Table

See the section A.2 of the Data Analysis section.

Data Tables

See the section C of the Data Analysis section.

Figures

See the section C of the Data Analysis section.

Questions

Here you can answer any specific questions asked in the write-up.

Calculations

This section is where you can put example calculations or other calculations that are not suited for a data table.

Raw Data

This is the data as you took it in lab; Rough tables made by hand, graphs made by hands, other numbers or relevant drawings made during the lab period.

Conclusion

See the Example Conclusion below.
