

Nanotechnology Seminar Series

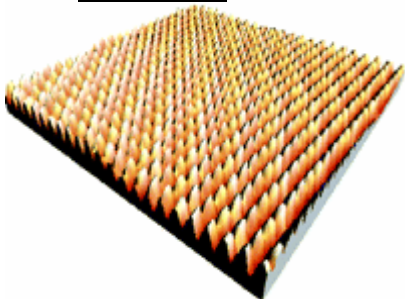

The Nanotechnology Seminar Series is intended to bring together faculty members, students, and guests for exchanging ideas and research experience in the multidisciplinary field of nanotechnology.

Topic: “Synthesis of Functionalized Gold Nanoparticles and Their Effect on Chymotrypsin Activity”
presented by Roger Masotti, supervised by Dr. Jacqueline Whitling

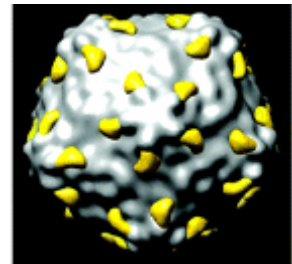

Abstract: The preliminary results within this project were achieved by Roger Masotti and Stephanie Hunsicker under the supervision of Dr. Whitling during their independent studies in the spring semester of 2007. The presentation will start with a general introduction to the subject and the results up to now will be discussed in more details.

When: April 2nd, 11:10-12.00 p.m.

Place: Ulmer Hall, room 216

All faculty members and interested students are kindly invited.

For questions and comments contact Dr. Marian Tzolov (mtzolov@lhup.edu).
