

Nanotechnology Seminar Series

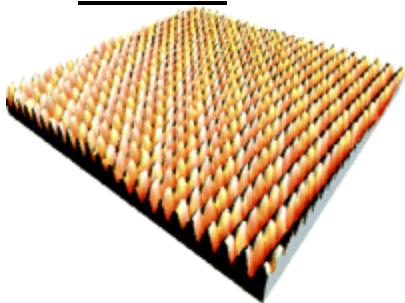

The Nanotechnology Seminar Series together with the Honors Speaker Series invites you to attend:

Topic: " Nanotechnology in Neurosurgery Research"
presented by Dr. A.B. Madhankumar, Hershey Medical Center

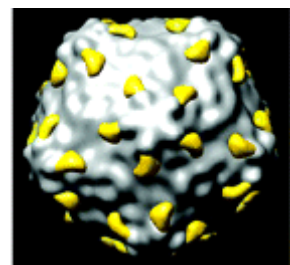

Dr. Madhankumar is Assistant Professor of Neurosurgery at the College of Medicine, Penn State Milton S. Hershey Medical Center, and directs the Nanotechnology Program at the Department of Neurosurgery. He will present aspects of the research at the department related to Nanotechnology and how they are applied to develop new medical detection and treatment procedures. LHU students in the Nanotechnology Program have conducted research internships in the laboratory of Dr. James Connor, Vice-Chair of the Department of Neurosurgery, under the direct supervision of Dr. Madhankumar.

When: March 30th, 6:30-8:30 p.m.

Place: Hamblin Hall of Flags

All faculty members and interested students are kindly invited.

For questions and comments contact Dr. Jackie Whitling (jwhitlin@lhup.edu).
