A special note regarding decorations...

Although you'll only be here for five weeks, you will want to customize your room by adding decorations, posters, etc. When hanging pictures or posters, it's important to use caution. Standard tapes will cause damage to the paint and/or wall. Damages will be billed at the end of the program. You must avoid duct tape, scotch tape, electrical tape, adhesive squares, thumb tacks, and nails. If you need suggestions, ask your Resident Assistant.
